

OMOOHWO OHWODUADJEKE

Software Engineer

joatxibusiness@gmail.com | Portfolio | England, United Kingdom

TECHNICAL SKILLS

Languages:

JavaScript, Python, Java, Kotlin

Frontend:

React.js, HTML, CSS, Bootstrap, Figma

Backend:

Node.js, Express.js, SQLite, MongoDB

Tools & Platforms:

Azure WebApps, GitHub Actions, Git, FFmpeg, PyQt, JWT

Other:

Multithreading, Automation, UI/UX prototyping, FFmpeg integrations, Linux OS

PROJECT EXPERIENCE

Microsoft Outlook Email Security Add-In | Developer

- Collaborated with a cybersecurity SaaS company to prototype and improve their Outlook security add-in.
- Built real-time sensitive data detection that flags confidential content before sending.
- Designed native Outlook UI components enabling recipients to decrypt messages without external tools.
- Delivered stakeholder demos and structured documentation outlining feature roadmap and enterprise scaling.

Automated Cross-Platform Screen Recorder | Python / FFmpeg Developer

- Created a Windows & Linux screen recording app using FFmpeg with synchronized audio and high-resolution video.
- Implemented automation via psutil to auto-start/stop recordings based on running applications.
- Used PyQt and QProcess to ensure a responsive UI during FFmpeg operations.
- Added cross-platform notifications using Plyer to improve workflow automation.

Recipe/Cuisine Sharing App | Full-Stack Developer (Node.js)

- Led development of a recipe-sharing platform focusing on backend scalability and CI/CD reliability.
- Built REST API using Node.js, Express.js, and SQLite.
- Configured GitHub Actions CI/CD for automated Azure WebApps deployments.
- Oversaw code reviews, testing, and iterative performance improvements.

Location Finder Web App | Java Developer

- Built a Java-based location search tool using JSP and DAO pattern.
- Created SQLite database storing points of interest and dynamic JSP rendering.
- Ensured robust separation between backend logic and UI layer.

EDUCATION

BSc (Hons) Software Engineering

Southampton Solent University

2022 - 2025
